Professional Summary

B.Pharm final-year student with hands-on experience in Ayurvedic pharmaceutical manufacturing, GMP/GLP compliance, QA/QC documentation, and quality management. Certified in Pharmacovigilance and Clinical Research with practical exposure to data analysis using Excel, Tableau, and Power BI.

Technical Skills

Pharmaceutical: Pharmacovigilance, Manufacturing Processes, GMP/GLP Compliance, Drug Safety, Clinical Research

QA / QC: IPQC, SOP Development, BMR, Deviation Handling, CAPA, Audit Preparation, Change Control, Stability Testing

Data & Analytics: MS Excel (Advanced), Tableau (Dashboards), Power BI (KPI Reports, Data Modeling), Research & Data Interpretation

Professional: Team Collaboration, Cross-functional Coordination, Project Management, Time Management, Documentation & Reporting, Adaptability

Education

R.G. Sapkal Institute of Pharmacy, Nashik

Bachelor of Pharmacy (B.Pharm)

Shri Samartha Jr College, Akola

Higher Secondary Education (Science)

Sitaramji Ganorkar School, Amravati

Secondary School Education (10th Standard)

2022 – 2026

CGPA: 8.10/10

2022

87.67%

2020

86.60%

Certifications

- Pharmacovigilance Training Certificate
- Oracle Cloud Infrastructure 2025 Certified – AI Foundations Associate
- Pfizer UK – Molecule to Market Job Simulation
- Clinical Research Basics
- Pharmacy Industry Training Programs

Experience

Koral Pharma, Nashik

Pharma Intern (Ayurvedic Manufacturing)

– Gained hands-on exposure to Ayurvedic medicinal product manufacturing processes

– Studied end-to-end production workflows including formulation, processing, and packaging

– Assisted in quality control checks aligned with GMP practices and documentation standards

– Learned packaging standards, labeling requirements, and storage conditions for Ayurvedic products

– Collaborated with production and quality teams to understand workflow coordination and operational efficiency

Jul 2025 – Aug 2025

Projects

- **Pharmaceutical Manufacturing & Quality Systems** – Analyzed Ayurvedic formulation processes, GMP/GLP practices, batch documentation, and raw material standardization methods
- **Quality Control Analysis** – Monitored in-process quality checks, maintained production records, and gained insights into regulatory audit procedures
- **Technology & Healthcare Research** – Explored AI in healthcare diagnostics, drug safety systems, IoT health monitoring, and blockchain for medical data management
- **Cybersecurity in Digital Health** – Studied data privacy, cybersecurity challenges, and technology-driven innovations in pharmaceutical systems

Soft Skills

Problem Solving • Communication • Teamwork • Leadership • Analytical Thinking • Adaptability • Time Management
